ADOBE AUDITION Multitrack Recording

1)Open Adobe Audition (AU)

2)Open a multi track session File>New>Multitrack Session

3) Write your session name, choose a folder location and click OK

4) Click on the "R" to record enable

5) Click on the "I" if you want to hear yourself while recording

6) Click on the record button to start recording

7) Click on the stop button to finish recording

8) Now you will have your wave file

=	5r J≠ at	¥	2	n	terrs .	1,0	2.0	340	-4.8	. 5ª .	6.0	7.0	a.a	, W	100 1

Adobe Audition CC 2015

10)If you want to record on another track just repeat steps 4-8 on the next track. For example Track 2

11)Remember to just record enable on the track that you want to record.

12)File>Save All

This will save all the wave files of your multitrack session
